Hey Steve, attached is the explanation of the LEDS on the unit. The full manual should be included in our O&M. More than likely its due for service.

Chris

Subject: Nitrogen Skid Question

Hi Chris, this is Steve in Colorado Springs, Colorado. I have a question about our nitrogen skid I thought you might be able to give me a direction to go. Our adsorption air dryer has a flashing yellow light on it and on the front panel a flashing light that says desacant Dryer. The unit is a Atlas copco and the dryer is a CD5+. Both the filters before and after the dryer are dry and still in the green. Can you tell me what direction I need to look at first I know nothing about this? Thanks Sir.
